So, the assistant will find his/her place in the community and will become precious for the enrichment of the educational offer and provide valuable support to teachers for better organization and innovation of the curriculum offered by the school.</p> <p>The trainee Erasmus+ will support the school in the implementation of eTwinning and extra curriculum projects for the knowledge and improvement of the area, even by comparison with that of origin of the trainee himself/herself. He/She may also support teachers in their activities to promote the integration of disabled students and foreign students. In addition, the institute is preparing to apply for a Strategic Partnership: if the application should be approved, the trainee will be able to collaborate in the activities of the partnership. The teachers will encourage his/her inclusion in the local Community, helping him/her in the search for accommodation; they will provide, upon his/her arrival, a "welcome pack" containing all relevant information on the territory; he/she'll get involved in the cultural and social activities of the hosting Community.</p> <p>Since the institution of Villaputzu includes several schools located in the area, the contact teacher will coordinate the activities and act as true facilitator for a successful integration of the trainee in every school.</p> |
